

Statistical Data Analytics: Foundations for Data Mining, Informatics, and Knowledge Discovery Solutions Manual

By Walter W. Piegorsch

John Wiley & Sons Inc. Paperback. Book Condition: new. BRAND NEW, Statistical Data Analytics: Foundations for Data Mining, Informatics, and Knowledge Discovery Solutions Manual, Walter W. Piegorsch, A comprehensive introduction to statistical methods for data mining and knowledge discovery. Applications of data mining and big data increasingly take center stage in our modern, knowledge-driven society, supported by advances in computing power, automated data acquisition, social media development and interactive, linkable internet software. This book presents a coherent, technical introduction to modern statistical learning and analytics, starting from the core foundations of statistics and probability. It includes an overview of probability and statistical distributions, basics of data manipulation and visualization, and the central components of standard statistical inferences. The majority of the text extends beyond these introductory topics, however, to supervised learning in linear regression, generalized linear models, and classification analytics. Finally, unsupervised learning via dimension reduction, cluster analysis, and market basket analysis are introduced. Extensive examples using actual data (with sample R programming code) are provided, illustrating diverse informatic sources in genomics, biomedicine, ecological remote sensing, astronomy, socioeconomics, marketing, advertising and finance, among many others. Statistical Data Analytics : Focuses on methods critically used in data mining and statistical informatics....

Reviews

Very beneficial for all type of folks. It can be rally intriguing through studying time. You will like how the writer publish this ebook.

Totally one of the better pdf I have at any time read through. It really is simplified but shocks within the 50 % from the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.
